Career Objective

Fresher Full-Stack Developer (Laravel & React) with 2+ years of hands-on project experience. Built 5+ real-world apps with REST APIs, MySQL & role-based auth. B.Sc. CSE, Premier University.

Career Summary

Full-Stack Developer with over 3 years of experience in self-driven projects, specializing in Laravel and React. Proven track record of building 5+ web applications using MVC architecture and RESTful APIs—expert in developing secure systems with role-based authentication and optimizing MySQL databases for production-ready environments.

Special Qualification

Expertise in Laravel and React with a focus on secure, scalable web apps. Skilled in role-based auth, REST APIs, and MySQL optimization. Strong commitment to clean code, MVC architecture, and delivering responsive user interfaces.

Experience

Total Year of Experience: 4.4 yrs

1. Full-Stack Web Developer (4.4 yrs)

(01 Jan, 2022 - Continuing)

Self-Employed / Freelance Developer

Chittagong, Bangladesh

Area of Expertise

Bootstrap 5 (3 yrs), Git Version Control System (3 yrs), HTML5 & CSS3 (3 yrs), Laravel Framework (1 yr), PHP (OOP) (1 yr), React (1 yr), REST API Development (1 yr)

Duties/Responsibilities

- Designed and developed 5+ full-stack web applications using Laravel (PHP) and React.js, following MVC architecture.
- Built secure role-based authentication systems with JWT token-based login and access control.
- Developed RESTful APIs consumed by React frontend with dynamic state management using React Hooks. Designed and optimized relational MySQL databases with efficient query handling.
- Delivered production-ready projects with responsive UI using Bootstrap 5 — including an E-Commerce platform and a Traffic Offense Management System.
